From time to time, opportunities may arise for student photos/videos and/or student work to be included in local newspaper articles, school and district newsletters, school and district websites, and social media. Please note: at the PreK-8th grade levels, only the first names of students would appear on the websites, slide presentations, and other media. We would like to publicize the good things the students of Community Unit School District 201 are doing in our schools, but we must have parent/guardian permission to do so.

Please complete the form provided below indicating your preference in regard to this issue.
